SUMMARY

Dynamic and results-driven Software Engineer with full-stack web and mobile app development expertise. Proven ability to deliver high-quality solutions under tight deadlines. Seeking challenging opportunities to leverage technical skills and drive impactful project outcomes.

WORK EXPERIENCE

Convergence IT Solutions

May 2022 - Present

- Designed, developed, and maintained different projects including the "One Card System" project, delivering seamless functionality and enhancing user satisfaction.
- Performed code reviews, debugging, and rigorous testing to ensure adherence to industry standards and best practices.
- Leveraged React, Next.js, Node.js, Go, Python, and PostgreSQL to deliver top-notch solutions.

Mereb Technologies

Apr 2021 - May 2022

- Managed project timelines, achieving a 30% reduction in delivery times.
- Optimized workflows, boosting overall efficiency by 25%.
- Partnered with cross-functional teams, increasing project success rates by 10%.

Ministry of Innovation and Technology

Mar 2020 - Apr 2021

- Participated in implementing an efficient store management system for the ministry, reducing paperwork and manual tasks.
- Streamlined workflows with a user-friendly interface, boosting productivity.
- Utilized React, Node.js, and PostgreSQL for a dynamic, robust, and seamless solution.

EDUCATION

Bachelor of Science in Software Engineering

Jan 2015 - Feb 2020

Addis Ababa University

- Completed coursework in Software Engineering, focusing on Data Structures and Algorithms.

High School Diploma

Jan 2011 - Dec 2014

Debre Markos Secondary School, Debre Markos

- Graduated with a focus on Mathematics, Science, and Programming.

ADDITIONAL INFORMATION

- Technical Skills:** Python, JavaScript, Data Structures and Algorithms, Full-stack Development, Problem Solving
- Languages:** English (Fluent), Amharic (Native)
